The Indian Pharmaceutical Association (IPA) is the national professional body of pharmacists engaged in various facets of the profession of pharmacy. The IPA is committed to promote the highest professional and ethical standards of pharmacy, focus the image of pharmacists as competent healthcare professionals, sensitize the community, government and others on vital professional issues and support pharmaceutical education and sciences in all aspects.

IPA works in different fields through its various Divisions and the Community Pharmacy Division (CPD) is active in promoting pharmacy practice in the country. CPD works with community pharmacists to upgrade their knowledge levels. It does so through continuing education programmes, conventions, E Times -the bi-monthly electronic newsletter, taking up problems of pharmacists with the Government, organizing DOTS TB Pharmacists training in collaboration with TB Cell in different states to promote pharmacies as DOTS centers under Revised National TB Control Programme.

The Convention : IPA Goa Sate Branch in collaboration with IPA CPD, is organizing a One Day National Convention for practicing pharmacists in Goa.

Aim : The aim of the convention is to bring together Pharmacists and to educate /update them on various aspects of diseases/medicines as well as to discuss various issues related to pharmacy practice.

Who should attend : Practicing community hospital & clinical pharmacists or pharmacy students and academicians from any part of india can attend.

Why to attend : With increasing complexity in the pharmacy profession, rapid medical and technological advances the need for upgrading knowledge has become essential for Pharmacists. Therefore Continuing Professional Development is very important for the Pharmacists, to keep themselves abreast and upgraded on the latest changes taking place in Pharmacy and medical sector as well as to refresh their knowledge on various aspect of health care.

Contents : The Convention will have a mix of lectures, case studies, demonstrations of patient counseling and active interactions, on various topics of day-to-day interest of practicing pharmacists. All the sessions will be handled by expert faculty in the field of pharmacy and medicine.
