**SUBJECT: PUBLIC CONSULTATION REGARDING REGULATION OF SALE OF DRUGS IN THE
COUNTRY.**

Sir,

Hon. Gen. Secretary

Kaushik Desai

Thank you very much for giving an opportunity to the stake holders to offer their suggestions. I on behalf of the Indian Pharmaceutical Association (IPA) would like to place the following points before you for consideration, which are as follows-

Hon. Treasurer

Hemant Mondkar

Editor - Pharma Times

Alka Mukne

Editor - IJPS

Divakar Goli

1. The concept of forming an e-platform for regulation of sales of drugs is an ideal one, but before its implementation, present circumstances like socio economic conditions, infrastructure requirements should be considered.
2. We have already communicated our views on on-line pharmacy, stating that it would not be wise to allow on-line pharmacies at this moment due to several reasons as mentioned in our letter (copy enclosed for your ready reference).
3. Issues such as, huge numbers of FDCs, strip-cutting may need to be sorted out first, which are the main deterrents to this concept.
4. Issue of providing manpower and infrastructure by small retailers/whole-salers as well as MSMEs plea on barcoding to be resolved first.
5. The Govt. did not accept the proposal of adding dispensing fees by the pharmacists since it would cause escalation of medicines cost, but how another fees can be charged for this purpose. We feel it is in contradiction to earlier views of the Govt.
